

Featuring Joel Williams

- **Nitrogen Nutrition: a Plant and Soil Perspective**
- **Understanding Biostimulants and Plant Secondary Metabolites**
- **Optimizing Foliar Inputs and Foliar Efficiencies**

Join us for an immersive day dedicated to Soil Health, led by the expert insights of Joel Williams! Discover the science of Nitrogen Nutrition from both plant and soil perspectives, explore the power of biostimulants and plant secondary metabolites, and learn strategies to optimize foliar inputs for maximum efficiency.

DON'T MISS THIS OPPORTUNITY TO DEEPEN YOUR KNOWLEDGE AND TRANSFORM YOUR APPROACH TO SOIL MANAGEMENT!
